

Dear Friends,

I would like to invite you to have a look at a very attractive program we are about to start.

We are opening a Certificate in Communication and Media in Evangelism. This is addressed specifically to those who are after media and communication and at the same time are accustomed to working in the zone of church or religion, especially in the Adventist Church in Europe. Currently no academic program of this kind is offered by European Adventist colleges.

This Certificate is run by the Media And Communication Department of Southern Adventist University in cooperation with the Polish College of Theology and Humanities (Media and Journalism Institute) in Podkowa Leśna. The program is designed for 4 semesters, up to 2 years, and is meant to equip church administrators, professionals, communication directors, media practitioners and local conferences / churches volunteers in professional skills of building media content, writing, planning and production of podcasts, shorts and other media content, proper communication and representation in various social and cultural circumstances.

The program is designed for busy professionals as except for two short sessions all the other teaching will take place online, and this in an unintrusive way as the 8-week-long courses will have their face-to-face session only once a week and in evening hours so that the education doesn't go in the way of your work.

Please, see the attached poster with general information and a PPT presentation under the QR code with more details. If you have questions concerning the details or the cost, feel free to contact Łukasz Romanowski on lukasz.romanowski@wsth.pl Don't waist this great opportunity. Start your growth today!

Kind regards,

Łukasz Romanowski, Ph.D.
